# WHEN DOES A ROBOT BECOME HUMAN?

(and then what is the essence of human?  
Sophia, Zeno and Bina cases)

The growing resemblance of androids to humans, in appearance and capabilities, increasingly reveals what it means to be human. Androids occupy social, operational and even artistic roles similar to our own. The seminar will start by reflecting on how the growing success and increasingly effective implementation of robots requires a reinterpretation and rethinking of the "nature of being human" and the relationship, or relationships, that can be established with these artificial beings.

## Organizza:

Simone TOSONI, Università Cattolica del Sacro Cuore

## Interviene:

Thomas RICCIO, Professor of Visual and Performing Arts at the University of Texas at Dallas

## Introduce:

Ester FUOCO, PhD Digital Humanities – Adjunct Professor University of Genoa

## Workshop

**Venerdì 30 aprile 2021**

**Piattaforma Microsoft Teams, ore 16.30-18.00**

Largo A. Gemelli, 1 - Milano
