FACOLTA' DI ECONOMIA
REQUISITI DI PRODUZIONE SCIENTIFICA

AREA STATISTICA

STATISTICA (SECS-S/01)
STATISTICA ECONOMICA (SECS-S/03)
DEMOGRAFIA (SECS-S/04)
STATISTICA SOCIALE (SECS-S/05)

1) PREMESSA

Quanto segue delinea i requisiti di produzione scientifica necessari ai fini del reclutamento nei ruoli di assegnista, ricercatore a tempo determinato (tipo (a) e (b) legge 240/2010), ricercatore a tempo indeterminato, professore associato e professore ordinario per l'area "Statistica".

Nell'intento di dare stabilità ai criteri è stato sostanzialmente mantenuto l'impianto indicato nel documento 2014-16, a cui si rimanda per dettagli di tipo tecnico. Per quanto riguarda il documento che stabilirà i requisiti per gli anni successivi al 2019 si auspica che esso, oltre ad un naturale aggiornamento, preveda anche una linea di continuità con il documento attuale con particolare riferimento alle pubblicazioni e relativa classificazione.

2) CRITERI DI RECLUTAMENTO

Seguendo le indicazioni del documento generale della Facoltà sulla continuità temporale della produzione scientifica, si richiede che gli articoli la cui pubblicazione debba collocarsi negli ultimi 5 anni solari precedenti la data della delibera della Facoltà che apre la procedura di reclutamento, siano: i) per i ricercatori: tutti; ii) per i professori di II fascia: almeno due; per i professori di I fascia: almeno tre.

SECS-S/01; S/03

1) Per l'attribuzione di Assegni di Ricerca.
Titolo di Ph.D./Dottorato di Ricerca, o almeno, alla data della pubblicazione del bando, essere iscritto all'ultimo anno di un Ph.D./Dottorato di Ricerca ed inoltre che la data attesa del conseguimento del titolo sia inferiore all'anno (certificata da lettera del supervisore o del direttore della scuola di dottorato).

2) Per l'attribuzione di contratti di Ricercatore a tempo determinato di "Tipo a".
    a.   Per i candidati che abbiano conseguito il Ph.D./Dottorato di Ricerca da meno di tre anni alla data della pubblicazione del bando:
- Un articolo in rivista di classe superiore/uguale a Bb.

    b.   Per i candidati che abbiano conseguito il Ph.D./Dottorato di Ricerca da tre anni ma da meno di sei alla data della pubblicazione del bando:

- Un articolo in rivista di classe A o B.

    c.   Per i candidati che abbiano conseguito il Ph.D./Dottorato di Ricerca da sei anni o più alla data della pubblicazione del bando:
- Due articoli: di cui uno in rivista di classe A o B e uno in rivista di classe superiore/uguale a Bb.

Alla scadenza del primo triennio contrattuale, il rinnovo per il successivo biennio è condizionato al soddisfacimento dei requisiti (aggiornati per i tre anni di anzianità maturati).

3) Per l'attribuzione di contratti di Ricercatore a tempo determinato di "Tipo b", e per i trasferimenti di Ricercatori a tempo indeterminato da altre Facoltà/Università:
Tre articoli di cui due in riviste di classe A o B e uno in rivista di classe superiore/uguale a Bb.

4) Per la chiamata di un Professore di seconda fascia.
Cinque articoli, di cui: un articolo di classe A, due articoli di classe A o B, e due in riviste di classe superiore/uguale a Bb. Nel calcolo dei requisiti, il primo articolo pubblicato su riviste di classe A+ è contato due volte come rivista di classe A.

5) Per la chiamata di un Professore di prima fascia.
Dieci articoli, di cui tre in riviste di classe A, quattro in riviste di classe A o B, e tre in riviste di classe superiore/uguale a Bb. Nel calcolo dei requisiti, il primo articolo pubblicato su riviste di classe A+ è contato due volte come rivista di classe A.

SECS-S/04;S/05

1) -2) -3) Come per gli altri settori. Per le attribuzioni 2) [**contratti di Ricercatore a tempo determinato di "Tipo a"**] e 3) [**contratti di Ricercatore a tempo determinato di "Tipo b", e per i trasferimenti di Ricercatori a tempo indeterminato da altre Facoltà/Università**], la condizione "di classe superiore/uguale Bb" è sostituita da "superiore/uguale a Ca".

4) Per la chiamata di un Professore di seconda fascia.
Cinque articoli, di cui: un articolo di classe A, due articoli di classe A o B, e due in riviste di classe superiore/uguale a Ca. Nel calcolo dei requisiti, il primo articolo pubblicato su riviste di classe A+ è contato due volte come rivista di classe A.

5) Per la chiamata di un Professore di prima fascia.
Dieci articoli, di cui tre in riviste di classe A, quattro in riviste di classe A o B, e tre in riviste di classe superiore/uguale a Ca. Nel calcolo dei requisiti, il primo articolo pubblicato su riviste di classe A+ è contato due volte come rivista di classe A.

3) L<small>E RIVISTE</small>

La classificazione delle riviste che segue è identica a quella del documento 2014-2016. Essa si basa sulla lista VQR 2004-2010 GEV Area 13 gruppo disciplinare "Statistics and Mathematical methods" (http://www.anvur.org; VQR 2004-2010, GEV, Area 13, Allegati) e su liste predisposte dalla Società Italiana di Statistica (aggiornate al 2014), suddivise per settore scientifico disciplinare. I dettagli sono nel documento 2014-16. In un'ottica di aggiornamento, il presente documento prende in considerazione anche la più recente lista VQR 2011-2014 GEV Area 13 (cfr NOTE punto 5).

NOTE

1) Con riferimento alle chiamate dirette, rinnovi di ricercatori, concorsi per ricercatore di tipo b) e concorsi per professore associato deliberate entro il 31 dicembre 2019, per la classificazione degli articoli pubblicati **entro l'anno 2013** si utilizzano anche le liste per i requisiti minimi di facoltà di area statistica in vigore fino al 2013.

2) Per classe superiore/uguale a
   a. Bb s'intende: Aa+, Aa, Ab, Ba, Bb della lista SIS dello specifico settore, oppure A o B della lista del corrispondente settore.
   b. Ca s'intende: Aa+, Aa, Ab, Ba, Bb, Ca della lista SIS dello specifico settore, oppure A o B della lista del corrispondente settore.

3) Per ciascun settore, le riviste di classe A+, di altissima gamma, sono di taglio statistico generalista o specifiche del settore con almeno 3 A nella lista VQR 2011-2014 GEV 13. Riviste che erano in fascia A+ nel documento 2014-16 e che non soddisfano al requisito sono considerate di classe A.

4) Per le riviste che abbiano cambiato denominazione, non ancora presenti nelle liste successivamente indicate, si applica la classificazione precedente al cambiamento di denominazione.

5) Riviste *non* ricomprese negli liste successivamente indicate, ma presenti nella lista VQR 2011-2014 GEV Area 13 gruppo disciplinare "Statistics and Mathematical methods" (http://www.anvur.org; VQR 2011-2014, GEV, Area 13, Classificazione delle riviste) con almeno 1 A sono considerate di classe A; mentre se presentano almeno 2 B sono considerate di classe B, *qualora siano anche presenti* nell'elenco delle riviste di classe A della lista ANVUR ASN Area 13 aggiornata al 21/07/2016 (http://www.anvur.org/attachments/article/254/CLA_13_21.07.2016.pdf) per il settore scientifico concorsuale corrispondente: (SECS-S/01->D1; SECS-S/03->D2; SECS-S/04->D3, SECS-S/05->D3).
   a. *solo* per i settori disciplinari SECS-S/03, SECS-S/04 e SECS-S/05 al più una pubblicazione può essere considerata di classe A se soddisfa al seguente vincolo: è inserita nella lista VQR 2011-2014, GEV, Area 13 in qualunque gruppo disciplinare con almeno 1 A ed è anche presente nell'elenco delle riviste di classe A della lista ANVUR ASN Area 13 aggiornata al 21/07/2016 (http://www.anvur.org/attachments/article/254/CLA_13_21.07.2016.pdf) nel

3

corrispondente settore scientifico concorsuale (SECS-S/03->D2, SECS-S/04->D3, SECS-S/05->D3).

Le riviste, con la relativa classificazione, suddivise per settore scientifico disciplinare sono riportate nel seguito.
